EDUCATION

Matric Graduation Grade:
72%

3rd Year BSc Information
Student. Average GPA:
71.73%

SKILLS

- Communication
- Teamwork
- Critical thinking
- Logical Thinking
- Adaptability
- Generalist

ACHIEVEMENTS

Top 3 IT students in
Highschool
Half Colors for 2022 IT
competition
Diverse knowledge base in IT

PROFESSIONAL OVERVIEW

Motivated and career-driven 3rd year IT student pursuing a Bachelor of Science in Information Technology, with a strong passion for software development. Possess a strong foundation in programming, problem-solving, critical thinking, and attention to detail. Good teamwork and communication skills from experience. Committed to continuous growth and contributing to innovative, high-performing teams.

WORK EXPERIENCE

Runner & Waiter:

~15 months of being a waiter/runner at Stonehaven on Vaal, a 4-star country resort. Work experience gathered over school vacations spread over 4 years.

Key skills gained:

Communication, high stress operational proficiency, commitment, teamwork, and good work ethic.

TECHNICAL SKILLS:

- Extensive SQL knowledge and application.
- Data modelling (UML, ERD, EERD, DFD, Chen & Crow Notation) experience.
- Experience with executing business rules & requirements into solutions.
- Technical hobbyist, increasingly large knowledge base.
- Languages learnt: SQL, HTML, CSS, Python, Java, Delphi, C, C++, C#, LUA.
- Extensive Windows machine Support experience.
 - Top achiever in group projects.

NOTABLE DEVELOPMENTS:

- Currently busy with DP-700 Certification (Microsoft: Fabric Data Engineer Associate) including KQL & PySpark.
- Limited experience on Linux (Kali Linux used for Penetration testing).
- Proficient with GitHub and Microsoft Office suite.
- Adaptability to different IDE's.
- IoT product development (<https://github.com/NathanFE05/ESP-32-LED-Staircase>).

PERSONAL OVERVIEW

Current Interests: Software development, Micro-Controllers, 3D Printing with added electronic features, home automation, Gaming server hosting/creating, Projection Mapping, and learning more.

Past interests: Game development, Game modification, Website development, Photoshop & Illustrator, Penetration Testing (Linux-based), Mobile App Development (MAUI), Packet Tracing (Cisco Packet Tracer & Wireshark).

BRIEF HISTORY OF MY IT EXPERIENCE:

Started gaming at the age of 4 on a Dell Dimension series PC, been hooked ever since. I've always tinkered and explored what technology has to offer, and continue to this day doing more advanced research and application of projects that pique my interests. I have a love for technology and, therefore, the drive to learn more. I am motivated by the development of systems and their application in everyday life. I am practically oriented and greatly benefit from hands-on experience.

I have taken a liking to pursuing a field in data, specifically data engineering, and will continue to learn and develop the required skills.

Future aspiration is to earn the Databricks Data Engineer Associate certification.

OTHER INTERESTS:

- Low power electronics (Soldering, wiring, and installation)
- Shade Tree Mechanic
- Rock Climbing
- Road trips
- Films and shows
- Photography
